Tier 0

this tier is:

I dont know who you are so: I dunno

This tier is for everyone to know the ships I will not be rating because I have no idea who they are and therefore cannot make fair judgement.

For you, this is the chart of ships that I will not include in this series:

Moth Flight x Micha: It's simple, I haven't read Moth Flight's vision.

Needlepaw x Perchpaw: Who the hell...?

Spotfur x Needleclaw: Broken Code pairing, right? Idk idrc

Flipclaw x Feather Of The Flying Hawk: I haven't read Graystripe's vow, but I will once I'm done with the Broken Code.

Bristlefrost x Stemleaf: pretty sure you get the idea about the Broken Code pairings in here

Spotfur x Stemleaf

Squirrelflight x Moonlight: I haven't read Squirrelflight's Hope yet but since she's my favorite character I can't wait! :3

Nightcloud x Pickle: who... who? Nightcloud x who?

Rootspring x Bristlefrost

Rootspring x Shadowsight

Bristlefrost x Needleclaw

Moonlight x Sol: If Moonlight is being shipped with Squirrelflight she does *not* belong with Sol that's all I know lmao

Daisy x Floss: Completely forgot who Floss is

Darkstripe x Silverhawk: I *think* Silverhawk is a random Dark Forest warrior, and that's exactly why I don't remember them.

Squirrelflight x Jessy: In the middle of Bramblestar's storm, so coming soon :D

Tier 1

i like the meme/i think it's funny/i think it's funny in a cute way

This tier is for meme ships I think are funny, ships I think are funny, and ships I think are funny so they should be together.

Ashfur x Scourge: I understand where this came from and I think it's hilarious. I know that a lot of people actually ship it and don't think it's a meme but it is to me and it's funny. If I were going to rate it seriously, ew.

Bone x Scourge: I'm going to be completely honest when I say I put all of the Bone ships in here because I didn't know what to do with them :/

Berrynose x Honeyfern: I dunno. Anyone with Berrynose is a disaster waiting to happen and I think it's pretty funny

Bone x Brick: Their pictures were goofy

Berrynose x Lionblaze: I kind of genuinely like this ship because I think that Lionpaw not because able to stand Berrynose/Berrypaw is pretty golden for a ship. And I think they would get on each other's nerves but only because they were frustrated that they had feelings for each other haha

Snowtuft x Hawkfrost: Didn't Hawkfrost absolutely slaughter Snowtuft? Lol u two belong together

Berrynose x Jayfeather: Like I said, I think if this were cannon it would get many, many laughs out of me. Jayfeather wasn't specifically angry with Berrynose until his friend Poppyfrost got with him. And when he *does* get angry with Berrynose, it's

hilarious.

Sol x Purdy: This one's just cursed, but I think I know where it came from. Probably came from Purdy being a huge Sol apologist. Then again, Purdy's ancient. And Sol is young. Ew. But other than that this is pretty funny. Funny because it's cursed.

Clear Sky x Star Flower: I knew this one would be comedy gold as soon as Star Flower spoke her first words in the series: I remember it like it was yesterday. "EVERYONE IN THIS ROOM NEEDS TO JUMP OFF A SKY SCRAPER AND ONTO A BRIDGE AND THEN JUMP OFF THE BRIDGE!"

Tier 2

i like the dynamic, but not with the characters/it was cute at first and then devolved into something terrible, but before that adorable.

This tier is for... well, exactly what it says.

Leopardstar x Tigerstar: I like the innocent angry girlypop with the charismatic evil guy. But I don't think it's for them.

Oakheart x Graypool: I get it, like the spiky, prickly, cozy little kitty and then the boastful dude who's actually pretty good. But Oakheart belongs with someone else...

Turtle Tail x Bumble: It's cute I guess, but I think that Turtle Tail loves Gray Wing a lot more. I like to think of Bumble as like a jealous crush if she even ever did have a crush on Bumble. And Bumble tries to join the moor group because Turtle Tail left I'm crying.

Leafpool x Nightcloud x Feathertail: Ah yes, the Crowfeather exes. I think that's a cute dynamic but the characters just don't fit: Cool, calm, sweet Leafpool, energetic, clean Feathertail, and rage seething Nightcloud. I don't know.

Graystripe x Firestar x Sandstorm: I know what you're getting at, but it just doesn't work for me. I don't think Sandstorm and Graystripe want to be related romantically, I think the only thing for this is everyone likes Firestar, and I guess that's pretty cute, I suppose.

Thrushpelt x Graypool: Again, I get it, they were the two fake partners to the real partners, and I think it would be really sweet to see them bond over it! But probably not with Graypool, and

Thrushpelt belongs with someone else...

Squirrelflight x Leafstar: This would be cute if it weren't for the age gap. Leafstar was a leader before Squirrelflight was born. Just kind of ew. And normally I wouldn't care about the age gap since it's warrior cats and I just don't take the time to care. Even still, this one creeps me out a little bit.

Blackstar x Stonefur: Why was this here again? Why did I put this here?

Blackstar x Littlecloud: I... I think you're starting to get the dynamic aspect of shipping. Just work on those characters please.

Bluestar x Yellowfang: I *promise* that the age gap ISN'T BAD. Yellowkit is born at a similar time to Bluestar, just check yourself. And I think this would have been super cute if... Yellowfang... didn't... die... so... quickly YOU KNOW WHAT WHATEVER CUTE BUT NOT THAT CUTE

Firestar x Onestar: At this point you should understand that they are fine ages for warrior cats characters, okay? Alright? Alright. I think it's sort of cute, the way that Wings of Change makes it seem. But then Onestar is a little too silly one time and then I think it's over >:(

Goosefeather x Pinestar: I understand, I just don't like the cats

Smudge x Princess: Yeah I just never see them together. Please don't throw rocks at me but I haven't read Firestar's quest nor do I remember almost ANYTHING from Fire and Ice, okay? ;w;

Brambleclaw x Squirrelflight: You might cry, but it's super abusive. Squirrelflight is a victim: she acts like a victim, she talks like a victim, she thinks like a victim, she's written like a victim. And Bramblestar disregards her feelings entirely. He never apologizes, he never *ever* once talked to Squirrelflight about the things that they might want in their relationship. He's an asshole to her. And not to mention run every single decision by me. You might as well just be a deputy, too, Bramblestar, jeez. It's like you have Squirrelflight as a deputy just to be aesthetic or something. ANYWAY, I think that

they were cute in Midnight!!!1!1

Ivypool x Tigerheart: I think that the "I'm angry at you for dating my sister because *I* want to date you" and the "I'm dating your sister so that I can get closer to you" dynamic is overused and REALLY fun. Just not with these two who hate each other.

Bumblestripe x Dovewing: It was cute for like... a few pages? Maybe... 40? Something like that.

Alderheart x Puddleshine: Yeah nervous bois together = cute but just not these bois

Crowfeather x Squirrelflight: Haha they would be angy at each other all the time! >:3 Then again, I don't think Crowfeather is fit for any relationship. He's stuck on Feathertail, and he's stuck very deep. He's just not built for something like that. And Squirrelflight belongs with someone else...

Sasha x Feathertail: I dunno, I guess they get along in the end or something, right????

Frecklewish x Mapleshade: "DID YOU JUST TRY TO KILL ME WITH A SNAKE??? hot..." "what???" "NOTHING!!!"

Firestar x Dustpelt: "I HATE YOU" "no you don't im handsome" "dammit youre right"

some of these ships can only be described through conversation >:3

Bramblestar x Sorreltail: Only if Bramblestar was abusive to Squirrelflight, he'd be abusive to Sorreltail. Other than that hehe two rlly buff people together hehe :3

Shellheart x Hailstar: Two bois who have been through everything together. Cute. Just not them, alright?

Tier 3

youve never interacted/youre background characters so idrc/ better off as friends

This tier is, again, for exactly what it says.

Jayfeather x Kestrelflight: I see it, but the two don't really talk that much.

Jackdaw's cry x Shattered Ice: I don't remember them from Dawn of the Clans, WHY DID I PUT THEM HERE? Let's just say they're better off as friends, I mean, most Dawn of the Clans cats are.

Brackenfur x Sorreltail: Just background characters having a good time ig

Leopardstar x Sunfish: Random RiverClan background character: hooray!1!

Sunstar x Moonflower: The only reason I'm against the *relationship* is because Sunstar as Bluestar adopted father figure is too cute and if it happened I would explode

Needletail x Rain: Just... cram a friendship in it I don't really care

Ravenwing x Birchface: We just never see them together -_(._.)_/-

Heathertail x Lionblaze: I put them in here thinking "friends" but I kind of like them more as enemies....

Lionblaze x Icecloud: Correct me if I'm wrong but they just never interact...

Brambleclaw x Stormfur: Again, better off as friends, just because Brambleclaw is abusive, he would be abusive to anyone without fixing *something* about himself.

Spiderleg x Sootfur: They just don't talk, do they?

Sleekwhisker x Raven: I almost completely forgot about them, but I thought I remembered them being a cute pairing... I think. I dunno.

Brambleclaw x Crowfeather: I'm not repeating myself on the Brambleclaw thing anymore 🗿

Appledusk x Reedshine: I don't fuuuuu...ricking know do whatever you want I don't care you're just wasting my time at this point.

Firestar x Ravenpaw: These men are friends !!111

Hazeltail x Hollyleaf: Just be friends, and Hollyleaf belongs with someone else...

Gray Wing x River Ripple: Cute but I don't care

Gray Wing x Slate: I DONT KNOW :(

Gray Wing x Storm: I WISH I NEVER READ THIS CURSED FIFTH SERIES 🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿🗿

Heathertail x Brook Where Small Fish Swim: WHERE DID THIS COME FROOOOOOOOOOM

Alderheart x Puddleshine x Fidgetflake: ALL of the nervous bois! This one is pretty cute ngl, but I don't think it should be romantic. I think of them more a friend group ;3

Whitestorm x Willowpelt: I just don't remember them talking

Jayfeather x Cinderheart: I forgot to tell you that I hate this ship, I should've put in the hate section.

Jayfeather x Willowshine: hehe that's pretty cute but eh, stay frens.

Runningwind x Redtail: Again, I just don't remember them together

Tier 4

what

This tier is the worst tier: for ships that make me sick/*very* confused

Mapleshade x Reedshine: Like what the hell Reedshine is Mapleshade's worst enemy like... HUH???

Mapleshade x Spottedleaf: I don't know where tf this ship came from but... uh uh, nope, NOT THIS AGAIN SPOTTEDLEAF

Mapleshade x Nightcloud: hehe all of Mapleshade's ships belong in here

Nightcloud x Feathertail: They have probably never interacted ever once

Russetfur x Sasha: This is just confusing

Brightheart x Cloudtail x Daisy: Don't tell me this exists... nah Brightheart secretly probably *still* doesn't trust Cloudman in a relationship w/ Daisy...

Breezepelt x Antpelt x Heathertail: WHAT THE HELL R U DOING HERE ANTPELT GET YOUR ASS OUTTA HERE

Whitewing x Hawkfrost: please stop

Mousefur x Purdy x Longtail: Purdy is friends with the others, and also gay in my opinion and also WAY WAY OLDER

Dovewing x Briarlight: I don't know why people like this. Dovewing, first off, loves Tigerheart and always will (yes, I like Dovewing x Tigerheart, please don't throw explosives at me PLEASE

DONT) and Briarlight loves Jayfeather and always will. Also, their characters don't fit >:(

Briarlight x Rosepetal: I got her mixed up w/ Cherryfall. I... please

Clear Sky x Storm: He treated her badly. Very much badly. And it isn't looking too good on Storm's end, either. She wasn't willing to raise her kits in Clear Sky's group and honestly I don't blame her. But they just don't work together.

Nightcloud x Crowfeather: No. And also, again, Crowfeather isn't ready for that kind of stuff, I will stand with that until the day I die.

Goldenflower x Sasha: They... never even knew each other

Antpelt x Breezepelt: I've said it once and I'll say it again, WHAT THE HELL R U DOING HERE ANTPELT GET YOUR ASS OUTTA HERE

Daisy x Squirrelflight: I'm just... not seeing sparks fly over here.

Fallen Leaves x Jayfeather: Nah it's supposed to be Hollyleaf, and same thing with Crowfeather, I think that Fallen Leaves needs a lot of work before he's ready to get into a relationship with someone.

Fallen Leaves x Flametail: THEY HAVE NEVER MET EVER

Ferncloud x Feathertail: What kind of chemistry do these two even.. have....?

Hazeltail x Poppycloud: Okay just realizing this now, who tf is Poppycloud? Is it a typo? Is it supposed to be Poppyfrost???

Mapleshade x Appledusk: Just stop

Featherwhisker x Thrushpelt: I'm not seeing any sparks over here

Thrushpelt x Bluestar x Oakheart: Honestly, I don't why I put it this low, but it's pretty bad. If we're talking cannon (Blue x Thrush is its own ship, alright?) then Bluestar isn't in love with Thrushpelt. Shoving Oakheart into the ship doesn't change anything. Bluestar

will never love Thrushpelt.

Goldenflower x Tigerstar: I imagine he treated her fine, it's just that.... naw

Tigerstar x Sasha: Again, naw

Ashfur x Squirrelflight: Ah yes, the other end. I honestly could make a whole chapter based on this ship. Ashfur is nice to her in the New Prophecy. But he smothers Squirrelflight a little bit. And she didn't want that. Turns out, she didn't want Ashfur. And what did he do about it? He set a fire, ruined her life, POSSESSED HER BOYFRIEND, AND THEN ASKED HER TO GO OUT WITH HIM AFTER ALL OF THIS?? I suppose it's just Ashfur logic. And it's not that I don't like Ashfur. I think he's a terrific villain. But in a *ship* with Squirrelflight? No.

Harestar x Antpelt: Where... what... huh?

Frostfur x Yellowfang: I wish this would stop

Harestar x Tigerheart: I don't ship anyone with Harestar because he's a WindClan cat: his relationships with the other cats wouldn't even be focused on, and because he just looks like the kind of guy who isn't interested in that kind of stuff.

Ashfur x Brambleclaw: Brambleclaw was pissed at Ashfur for being in love with Squirrelflight, and it seemed like he was just angry at Ashfur all the way through. So why not just not with them? I just don't like it. I *really* don't like it.

Mapleshade x Smoke: I forgot who Smoke was lmao but again Mapleshade with anyone sucks

Bluestar x Yellowfang x Goldenflower: Okay hear me out. Goldenflower is an apprentice at the same time Bluestar is. A little younger, but not by a huge margin. And same with Yellowfang. Goldenflower is older than we thought lol. ANYWAYS, uh no. Absolutely not.

Jayfeather x Foxleap: whaaa

the hell

Breezepelt x Harestar: I already discussed that Harestar shouldn't have a mate.

Sandstorm x Princess: They just wouldn't work.

Leafstar x Sol: She literally banished him for stealing her kittens, and then... omg just bring in the person who invented this so I can SMACK EM' >:3

Goosefeather x Hawkheart: I know, two crazed medicine cats, but Hawkheart killed his sister *vine boom*

Whitestorm x Willowpelt x Brindleface: Nawr fam, I'm more of a Brindleface x Willowpelt and Whitestorm x Lionheart, thanks.

Breezepelt x Tigerheart x Harestar: I'm just not gonna say anything

Nightcloud x Sorreltail: Absolutely not

Yellowfang x Russetfur: Oh yeah just shove Russetfur into any ship it'll be fine

Hawkfrost x Leafpool: Where did this come from? Now this is much less a crack-ship and way more like a real concern to the fandom. Leafpool is the kind of cat who would submit to a relationship because she felt forced, that's my personal headcannon of why she got with Crowfeather. That's making me terribly uncomfortable, thanks.

Ivypool x Antpelt: Okay come on it's over HOW MANY TIMES DO I HAVE TO TELL YOU ANTPELT, WHAT THE HELL R U DOING HERE ANTPELT GET YOUR ASS OUTTA HERE

Tier 5

what the hell is this and who invented it

This tier is for ships I don't like and make me confused

Sunstar x Thrushpelt: Hey man if Sunstar is allowed to date Bluestar's mom *and* Thrushpelt, and Thrushpelt's allowed to date Bluestar, that's messed up, who did this to me >:(

Squirrelflight x Nightcloud: How could they even... Squirrelflight doesn't even know her lmao

Nightcloud x Leafpool: Okay it was cute before but it's not cute anymore. I GET IT, CROWFEATHER WAS YOUR EX, BIG DEAL >:(

Tigerstar x Scourge: "Yo I killed you" "hot" "FRRR BRO"

Blackstar x Russetfur: I don't know, this one isn't actually that bad, but still, I don't really care for this one. It's just... why? Then again, why not? Why not? Because there's no reason >:(

Leopardstar and Mistystar: I just... don't see it, honestly that pretty weird.

Darktail x Hawkwing: They are enemies, Darktail literally ruined Hawkwing's life. Awww, how cute!1!!

Dovewing x Dawnpelt: Dawnpelt doesn't want to talk to anyone. She just wants to be a really mean background character. That's what she wants.

Ivypool x Bumblestripe: I understand it, I just think it's foul.

Tier 6

i dont like this ship

This tier is for the ships I just... don't like.

Snowfur x Thistleclaw: It made Bluestar's prophecy interesting in a whole different way. Considering most of the love drama in that book is centered around Bluestar, Thrushpelt, and Oakheart, it's cool to see her very close sister get with the villain of the book, and seeing Bluestar live with it. Thought it's an interesting plotpoint, I believe that their personalities do work together, however, Thistleclaw was evil. It would be easy for him to chose his Dark Forest training over his mate, and I just don't think that works.

Berrynose x Poppyfrost: Remember when I said anyone with Berrynose is hilarious? Well, I take it back. Poppyfrost is a very serious character. It seems like work is the only place she can escape her anxieties. But Berrynose comes in yelling at her and it probably doesn't help! I just don't see them as a good pairing. But ship all you like!

Cinderheart x Lionblaze: I think that this one just kind of sucks. I suppose you can fit Lionblaze into almost any ship: It's like shipping cardboard with someone. But Cinderheart? She's a sparky little gremlin who has the energy to kill four people straight and then revive them again. Lionblaze... I dunno. I just think this one was rushed in the books and it made Cinderheart act like someone she was written as ever.

Daisy x Brightheart: Eh... no. I think Brightheart still doesn't trust Daisy. As we see in a Thief in ThunderClan, Brightheart has pretty bad trust issues. Though they made up in the New Prophecy, I don't think that Brightheart would want to get in a relationship with her.

Darktail x Sleekwhisker: Okay this one is pretty funny, like what the hell? Sleekwhisker called Darktail attractive a few times was pretty funny. But Darktail returning those feelings makes me feel unsettled and creeped out.

Dustpelt x Sandstorm: It was kind of a Brambleclaw-Ashfur situation, where Sandstorm was friends with Fireheart and Dustpelt absolutely freaked out about it. I think that he's better off with Ferncloud. I just... don't think that these two work. And Sandstorm grew out of even being friends with Dustpelt. They're never seen interacting since.

Firestar x Spottedleaf: I understand their personalities together: Though Spottedleaf doesn't show it to Firestar, she's energetic and ambitious, as can be seen in Spottedleaf's Heart. She's ready for anything, and I think that Firestar could easily be attracted to that kind of personality. But... all things considered, this one sucks. She barely knew him!

Frostfur x Lionheart: These two just never interacted :|

Alderheart x Fidgetflake: Just... why???? As far as I know (about to read River of Fire and all) they have never talked to each other once.

Tier 7

its... a unique ship, i guess. either i dont dislike the ship but im just really confused, or i just dont know where to put them.

This tier is for ships that I think are a little different and deserve to be ranked in their own way, or they just genuinely made me stop and think, *What in the actual hell?* Or, I just didn't know where to put them :|

Sandstorm x Silverstream: Don't think they've ever interacted one lmao

Spottedleaf x Mousefur: I can definitely see their personalities together: As I mentioned, Spottedleaf is full of energy and ambitious, while Mousefur is easily irritable and sweet. I think that they're okay, but they're never seen interacting >:(

Smoke x Sasha: Again, I forgot who Smoke was. Onestar's sweetheart, right? Well if I am right, then why... why the hell...

River Ripple x One Eye: DotC paring. I just dont want to rate this one :|

Mistystar x Mousefur: what..... why.... just.... why....

Crowfeather x Feathertail: Honestly I think this one is just pretty weird. I like it, but Feathertail dies so soon and it's just hard to see Crowfeather never move on. It's pretty sad, and it sparks a feeling inside me that I don't know how to explain. When I saw that they were in love, I had to close the book because I was so overwhelmed. Like, Crowpaw with Feathertail? I think it's cute that she was the only one who would listen to him on the journey, but I would never predict that. And Crowfeather is choosing his childhood crush for, well... everything. His name is based of Feathertail, he had doubts

about his adult lover because of her. He's obsessed. And that kind of makes me uncomfortable, just to think about someone in real life doing that about me.... ew.

Cinderpelt x Sandstorm: It's that same sort of thing with like Leafpool x Feathertail, Leafpool x Nightcloud, or Nightcloud x Feathertail. But I don't think it works.

Cinderpelt x Silverstream: Oh yeah just put her there no one *really* cares... LIKE WHAT THE HELL

Clear Sky x Bright Stream: This one makes me feel weird because Gray Wing liked her too... but because she was attractive. And it seemed like that was the reason Clear Sky liked her, too. And a relationship like that wouldn't last. Then again, if that wasn't the reason Clear Sky was in love with her, good for him! And that relationship would have been fine.

Crowfeather x Harestar: Okay if Harestar ever turns up ever again (or Crowfeather) I'm just not going to put any sort of rating here...

Snowfur x Rosetail: This one is just kind of confusing. It *could* work, and I think that their personalities together are epic. But I just don't think so.

Tier 8

eh, its an okay ship

This tier is for ships I think are okay

Tallstar x Barkface: I'd like to think that if Tallstar ever got over Jake as a love interest, he would start loving Barkface. But since he just can't catch I break I imagine things would go horribly with those two. I like them as friends better, but I can definitely see them as partners.

Tawnypelt x Rowanclaw: Rowanclaw is seen at a Gathering yelling at Tawnypelt and then they're together??? I dunno. And it's still a little iffy about Rowanclaw since the authors put him with Tawnypelt just so it can be clarified he's a boy. Huh? Other than that, I think that they're cute. I just personally don't really ship it.

Fallen Leaves x Hollyleaf: I think Fallen Leaves needs a lot of work before he's ready to be in a relationship with anyone. And I don't even think it's romantic between them. Other than that, idrc. I think it's an okay ship.

Graystripe x Millie: I just realized this, but I'll get to it later. I ship them, but it depends on which book they're in. If it's in Graystripe's mangas, then I think it's adorable! Millie, just trying to help out a lost fella. But later, she becomes with protective jerk to Briarlight, and also, Blossomfall thinks she has it bad, NOPE. What about Bumblestripe LMAOOOO ok but anyways Graystripe is a jerk in his mangas, and Millie is nice in his mangas. That's what I realized.

Hollyleaf x Pebble That Rolls Down Mountain: I remember in Sign of the Moon when they met. I was just *dying* to ship a Clan cat with a Tribe cat and you know who I picked? Pebble. And Hollypaw. So, uh, I used to ship this, but now I realize that Pebble did not care in

the slightest when Hollypaw left, and Hollypaw didn't care either. So. Uh. Perfect ship, am I right??? Eh, I think it's fine.

Tier 9

i guess i like this ship

This tier is for ships that I guess I like. Kind of on the edge of liking them, but not quite there yet.

Leafpool x Sorreltail: This might be the perfect example of "I guess I like this ship". I mean, they're cute, but I just realistically don't think that it would happen. Sorreltail is a friend to Leafpool, and plus what about Mothpool :(

Littlecloud x Whitethroat: This one is also a pretty good example. I think it's cute that they trusted each other and went to hide together, like they didn't feel safe away from each other. I like to think this was Littlecloud's childhood crush.

Squirrelflight x Shrewpaw: I barely remember them being friends, but people are constantly telling me that they wuved each avor. So uh I guess I like them... I dunno

Shadowstar x Windstar: Ha ha ha enemies to lovers is coming for me hehe. I think it's alright.

Sparkpelt x Larksong: It just makes me hiss with fury how Sparkpelt was spending more time with Larksong than with Alderheart. Sparkpelt was all he had since their siblings died and their mother and father were leader and deputy, aka, super busy. So yeah. But I suppose that they make up. I'm still not satisfied with the ending of that conflict, though.

Crowfeather x Leafpool: I don't like this because, I guess this is just a headcannon, but I had it ever since they started getting closer, but I believe that Leafpool only got together with Crowfeather because she felt bad for him. I know that this completely betrays the text,

and you're probably gagging right now, but still. Crowfeather and Leafpool's ship is fine, it's just that Crowfeather isn't right for her. In fact, I just put it this high because of Bright Guardian Akira's video about forbidden romance and how it represents a long distance relationship.

Dustpelt x Ferncloud: I've got no complaints about them being together. It's just that Dustpelt started liking her as *soon* as she was out of the nursery. ewww.

Firestar x Smudge: I like to believe that Firestar was in love with Smudge when he was still a kittypet. But I'm not a huge shipper.

Graystripe x Silverstream: CUTE! The only reason I put it this low is because Silverstream has no other personality but "I'm preeeeeeeeeeeetty!11!!"

Windstar x Gorsestar: It was kind of guaranteed from the start. Very predictable, DotC, do better!

Tier 10

i like this ship, s'all good, is cute

This tier is for ships I think are cute, and that if they happened it would give me joy. But it isn't a hardcore ship, like I'd probably never make art for them

Poppyfrost x Jayfeather: I like them better as friends, but if they got together than Poppyfrost would no longer be with Berrynose. Honestly, that's my favorite part. I'm pretty sure most people only started shipping this because Moonkitti pointed out that they were close. But if they got together then slay. But they're not together and I'm fine with that.

Leopardstar x Sasha: I love how Leopardstar was desperately begging Sasha to stay. They both know what it's like to love Tigerstar, and then realize how terrible he was. I think it's cute, but Sasha is gone and Leopardstar was dissapointed but fine. Again though, I think it's fine.

Longtail x Firestar: It's the same as Bluestar x Thrushpelt (age wise), okay? Okay. Just clearing that up. Cute. Just, cute. Longtail realizes that kittypets aren't so bad, and that's from Firestar. I like to think that they would get on each other's nerves all the time! But eh. If it happened, I would be happy. But they're both dead, and when Longtail dies Firestar barely cares lmao

Snowfur x Thrushpelt: I like to think that if I'm shipping this, then here's the story: Snowfur wants Bluefur to get together with Thrushpelt because she wants her sister to be happy, and secondly, it would make Thrushpelt happy. She just wants the best for him ;3 I think it's super cute!

Swiftpaw x Cloudtail: I think that it's pretty cute. But Swiftpaw

died. Idk, I'm just really confused.... I don't really know what to put here. I mean, on one hand, Swiftpaw died too soon and Cloudtail loves Brightheart. But on the other hand, lookit how cute the lil bois are

Quick Water x Falling Feather: EEEE cute. They are the fishing girlies.

Heathertail x Hollyleaf: If I shipped this, this would be my reasoning: Hollypaw is angry at Lionpaw for meeting Heatherpaw because *she* wants to meet Heatherpaw lmao

Breezepelt x Heathertail: When Heathertail was an apprentice she said that Breezepaw was fun to be around. I like that. I also think it's pretty funny. Just don't make Heathertail have his kits, please, Breezepelt is *not* ready to be a father ☠

Bluestar x Oakheart: Ah yes. *The* man. I think that they're cute, but only in the Fourtrees scene. Onward, Bluestar doesn't seem to care that her former mate died, and I just... don't like them *that* much. In fact, looking back, I should've put them lower.

Daisy x Ferncloud: Y'know what I actually kind of really like this. The two queens chilling. We love to see it. They're stuck in the nursery together all day and night, so shouldn't they make it good? ;3

Billystorm x Leafstar: Honestly I think this is *the* perfect example of this tier. I think that they are cute. Cute. They are not my favorite thing, far from my favorite thing, but still. Their relationship isn't perfect, and this is what makes it realistic and fun to read about. Plus, their flirting is really cute :3

Willowshine x Hollyleaf: Very cute. They were little medicine buddies. This is one of those cross-Clan friendships that the writers forgot about. And I think that they're very cute together. Just maybe not as partners in my opinion. But if they *did* ever become partners, I'd be jumping for joy :D

Tier 11

I really like this ship

This tier is for ships I really like

Leafpool x Cody: Just like Moonkitti said, Cody is a childhood crush. I also think Cody returned the feelings. I just think it's cute.

Mapleshade x Myler: this *must* have been misplaced, who tf is Myler???

Minnowtail x Mousewhisker: I make sure to put in every warriors fic that Mousewhisker likes fish. Why? Because they're cute.

Yellowfang x Raggedstar: I think it's super cute how he missed her.

Whitewing x Birchfall: Whitewing waited for him ;w; my heart can't take it

Firestar x Sandstorm: The og, the starter. Obviously it's cute. Anyone who doesn't like this ship is weird. Adorable enemies to lovers romance, we love it.

Whitestorm x Redtail: The men. I think they're super cute :3

Tier 12

i love this ship omg

This tier is for the ships I love a lot :D

Longtail x Mousefur: Why are they so cute ;w; very adorable: makes me happy. This is one of those ships that if you hear someone say they dislike it, you would gape. Unless you're the person who dislikes it. I respect you.

Ravenpaw x Barley: EEEE THE MEN!! This is another one that... that if you don't like it you're basically not apart of the fandom, I mean come on. I don't know anyone who would categorize this as anywhere below "I like this ship". It's so cute!

Needletail x Sleekwhisker: I may make jokes, but I genuinely think that two evil women together is a perfect ship. I mean, Sleekwhisker is calm and smart, and Needletail is rowdy and quick, brave and-okay, I guess I just really like Needletail. "Then why did Sleekwhisker kill her???" Because she thought that Needletail wanted to stay with her in the Kin. Leaving me? Unacceptable! Sleekwhisker is absolutely obsessed :P

Violetshine x Tree: Bro I'm only beginning River of Fire, like I read the first chapter, but I already love them. I have one thing to say: Tree 🌳

Violetshine x Zelda: The "evil" women. I'm not that big a shipper when I step back. But I just... I love the ladies, that's all. Zelda is so scared, and Violetshine tries to act brave for her, but really she's just scared, too. How cute!

Needletail x Sparkpelt: Surprisingly, I hadn't heard of this ship before I made the tier list. And it's adorable! I love how annoyed Sparkpelt was on the journey to find fake SkyClan. They are the two rowdy girls >:3

Blackstar x Sol: Another classic. Why else would Blackstar be so easily persuaded to drop StarClan?

Snowkit x Mosskit: They're both in StarClan, and no you foolish little Snowtuft theorize-rs, you're wrong. Snowkit is in StarClan. The two sweet little babies. Why must they be so precious? ;w;

Blossomfall x Ivypool: Again, evil women! And Ivypool can help Blossomfall! Though I *am* an Alderheart ThunderClan therapist kind of person, I think that Blossomfall needs someone who understands her. They both have issues with their sisters, and maybe you're saying the parallel to this is Dovewing x Briarlight, no, no, and no, I will fight everyone until they sink into their graves, okay?

Alderheart x Needletail: Who doesn't like this one? It's just so sweet. If Needletail stayed around a little longer, I bet he could help Needletail with her self-doubt ;3 plus, they're opposites. I think that they just work well together.

Bluestar x Rosetail: Of course it's them! Honestly, they beat (almost) every Bluestar ship. They were bffs, alright? I bet if they were humans they would buy friendship bracelets together and gossip about the middle school boys >:3

Bluestar x Thrushpelt: Remember back in tier 4 or something when I was saying that Bluestar would never love Thrushpelt? But also remember how I said that Bluestar x Thrushpelt is its own ship. Of course I think things would have worked out happier if Bluestar loved Thrushpelt. Then he wouldn't be alone and... just sad. Then again, what I said before still stands. They aren't perfect.

Brambleberry x Echomist: I love fun background lady friends

Brightheart x Cloudtail: Come on, we love it. Again, if someone says they don't like this one I'm going to hang them over lava to make them tell the truth. They're so cute together!

Cinderpelt x Littlecloud: Once Whitethroat died, Littlecloud looked to Cinderpelt for support. And she gave, hehe. And that's in my little fake universe where Littlecloud used to love Whitethroat. Anyway, cute. I like them together.

Crookedstar x Willowbreeze: I would have put this higher if it weren't for my number one Crookedstar ship. They're so cute together. It's sort of a Brightheart-Cloudtail situation, but Willowbreeze wasn't the first to think that Crookedstar was a super capable cat. Obviously that was Oakheart, Shellheart, or Brambleberry.

Echosong x Leafstar: I love how Echosong is the only one who can distract and help Leafstar with her issues. I like to think that Leafstar had a mental breakdown when Echosong died, and needed Hawkwing for emotional support ;3

Half Moon x Jayfeather: Cute! I love it. Thought they only knew each other for such a short time, they loved each other so much. And Half Moon's little "I will wait for you, even if it takes forever." Adorable. I love Jayfeather's past gig!

Gray Wing x Turtle Tail: Adorable. Just absolutely adorable. The way Turtle Tail was jealous, and how Gray Wing was so oblivious! It was great. I know, I sound pretty basic. But the next tier (the last tier) will make me seem like the most disgusting thing ever >;3

Bluestar x Goldenflower: Again, Goldenflower is old enough >:(And I really like Bluestar with Goldenflower. In Bluestar's prophecy, she's described as trying very hard to compete with her brother, and actually being better than Lionheart. Very adorable. Goldenflower was a queen to go down in history.

Whitestorm x Lionheart: Alright, I know this *sounds* super gross, but I promise you it isn't. It's like the same as Bluestar x Thrushpelt. Maybe Lionheart's a little older. But they are like the best of friends, and that makes me happy.

Tawnypelt x Feathertail: Cute. I love the clean gurl and the independent, mean girl. I don't really know what to day here. Now this next one is probably going to make you really, really angry.

But...

Bluestar....

I know, I know, I know. But their interaction in Crookedstar's Promise and Bluestar's Prophecy is perfect. Btw, this is my top Bluestar ship, if you were wondering. I just love how their friendship stuck. Plus, their personalities fit. But it's not my top Crookedstar ship. That might be Crookedstar x Willowbreeze. Or maybe these two are tied. I dunno. But what I *do* know is that they are perfect together, and I almost put them in the top tier. I love them together.

This. Is. Penultimate. >:3

Tier 13

i do not have words to describe how much i love this ship

This tier is the last tier in the tier list I made. This is the writing of mine with the most views, so thanks for reading this. It was pretty half-assed tbh lmao
But it's for my favorite ever ships, and you guys will probably throw rocks *and* explosives at me lmao

Mothwing x Leafpool: They are *the* girls. I already wrote something about how great they are together, so if you *really* want to look in on my opinion on these two then go to my profile and look at "Rating ships from Wings of Fire and Warriors", you'll find it there.

Oakheart x Thrushpelt: That's who Oakheart belongs with. This is a StarClan ship, obviously. I like to think Thrushpelt tries to meet Oakheart and he's rude to Thrushpelt because he got Bluestar and Thrushpelt didn't. Plus, Oakheart and his personality works great!

Briarlight x Jayfeather: They just belong, and you can't tell me they don't. Jayfeather is prickly and angry, Briarlight is sweet and energetic. And plus, they can bond over their disabilities. I'm not *that* big a fan of "Oh, they're both disabled so they should be together!" No. I think that they're cute because they just... work well.

Hollyleaf x Cinderheart: I really, really love this one. The older apprentices in the Power of Three are Honeyfern, Poppyfrost, and Cinderheart. Honeyfern spends time with Lionblaze, Poppyfrost spends time with Jayfeather, and Hollyleaf and Cinderheart are full on bffs. And when Hollyleaf comes back, Cinderheart is the first non-family cat to stand up for her. I see them fighting side-by-side in the Great Battle forever.

Ivypool x Fernsong: I love the dynamic of wimpy little man and super, super rough and tough woman. And I already said that I headcannon Fernsong trans, yes, fight me. But I fricking love them together. Absolute happy :3

Ashfur x Hawkfrost: Hawkfrost is being trained by Tigerstar. Yep. Other than that, he doesn't really have a personality. JUST KIDDING. He's charismatic. Well, maybe not that. Tigerstar the first is charismatic, but Hawkfrost is convincing and happy, and Ashfur is depressed. But if Ashfur wasn't depressed, he would be gullible and attached to pretty much anyone who comes his way. And he'd probably have some anger issues, but I think he'd be a sweet lover a guess... they could plot together.

Jake x Tallstar: Another one that if you don't like it, you... you haven't read Tallstar's Revenge. Jake speaks truth hands down, queen. Come on. It was really hard to choose which I liked better, Ravenpaw x Barley or Jake x Tallstar. But I think that Talljake is better because Tallstar didn't take a mate after, did he? He also thought about Jake for the rest of his life. I like to think that Jake got together with a bunch of other she-cats as a coping mechanism, and I know that's toxic, but that's just how I feel ig idk

Firestar x Graystripe: I think these two are platonic soulmates, honestly. But they are *the* men in my opinion. Once Ravenpaw left, FOR GOOD, they could comfort each other that way. I think that's sweet. I mean, the men. Very, very cute. They work well, they knew each other pretty much since birth, come on, and Firestar literally never named a deputy until Graystripe got back. Obsessed, lmfao

Twigbranch x Finleap: I'm only on the first chapter of River of Fire but goddamn, these two are absolutely adorable. Twigbranch and her self-value issues are fixed by Finleap, who loves her very much. He'd change Clans just for her. Beautiful sacrifice. They make me super, super happy.

Tigerheart x Dovewing: I know, I know. And so I'm going to shut down all of the popular beliefs on this ship: Tigerheart used her for the herb patch: Yes. But if Ivypool's life were on the line, Dovewing would've ratted Tigerheart in a heartbeat, that's all I'm saying. Tigerheart was abusive: Huh? Dovewing isn't written as an abuse

victim? She's written like a starstruck moron who would do anything for Tigerheart. And that's what she is lmao. I just really like them together. Tigerheart is hilarious, bouncing off the walls and boasting to everyone about how great he is, and to compliment him, there's sweet, fluffy Dovewing saying, "Okay we get it down you can stop killing people." Adorable.

My last and most beloved ship.....

It's written almost everywhere on my page. I mean, come on. I said before that I like two independent women together but this is different. They talk to each other on the journey, and Bramblestar is angry towards his sister as well as being abusive towards Squirrelflight. They share similar experiences. Bramblestar doesn't

have to be present anymore. He can shut up about how angry they make him feel, because it isn't all about fricking him anymore.

Tawnypelt is nicer to Squirrelflight than most, and they're friendly with each other. Tawnypelt is someone Squirrelflight thinks of seeking comfort in at some point, and I just like them. If they were a little closer, I think that it would be a lot more obvious that their relationship is unique and fun. I love their personalities, and just honestly love them together.

Special mentions:

Squirrelflight x Feathertail: Clean girl x angy girlie.

Squirrelflight x Stormfur: Cute.

That's about it. Thank you all for bearing with me this far. This is all my opinion, you can like ships I don't, you can dislike ships that I like. I loved doing this, and there's probably not many people here right now, but to you, the one seeing this, I thank you a lot. When I say "you," I mean you, not those idiots, hehe. Thanks, person. I appreciate this. I'm happy that this happened, I suppose.

If you want writing from me, easy. Just ask me. I specialize in Wings of Fire and Warriors, so if it's something else, good luck ig lmao.

But, again, thank you. Have a nice day. Oki thanks baiiiiiii ;3
